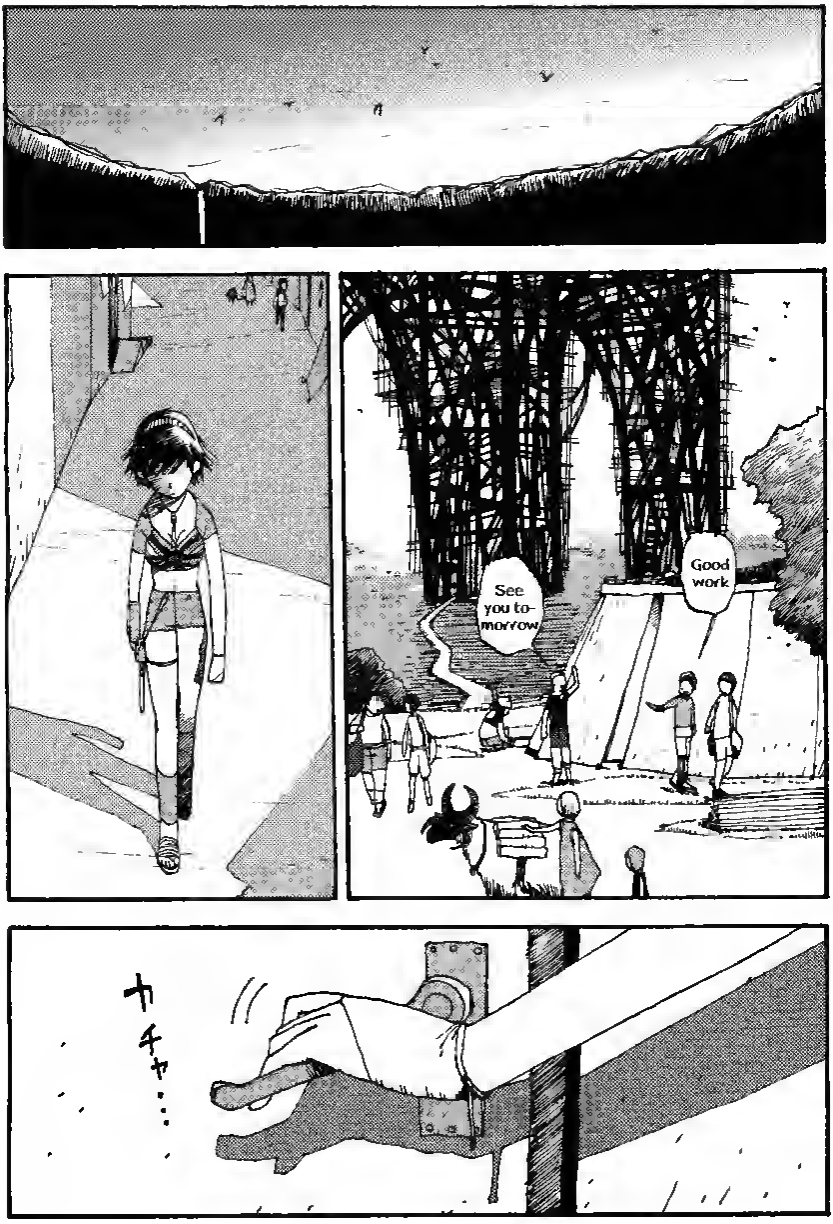
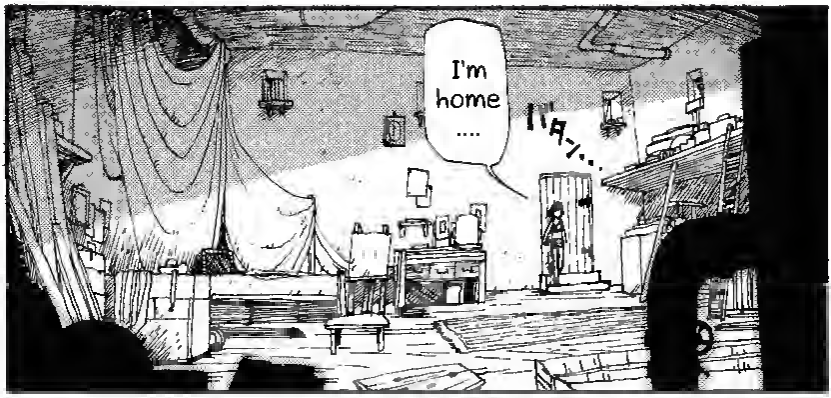
FANTASY & SCIENCE

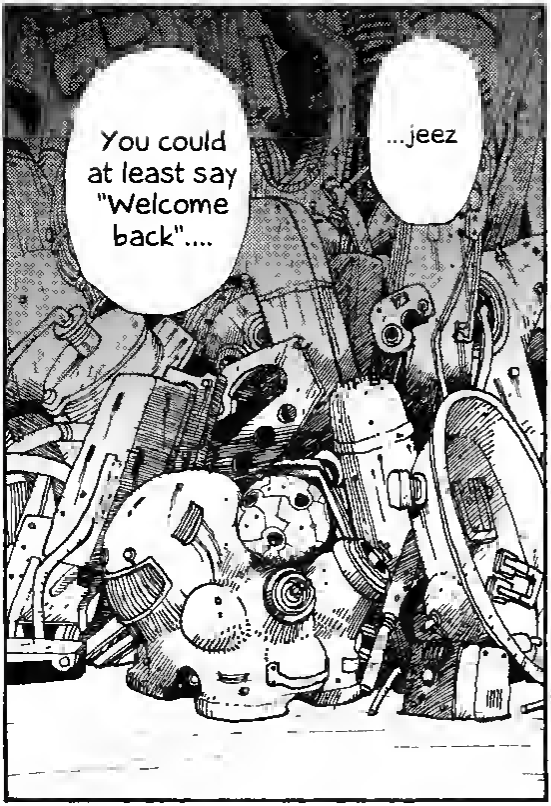
VOL.2



See you tomorrow
Good work
カチャ…



I'm home ....
ガラ...

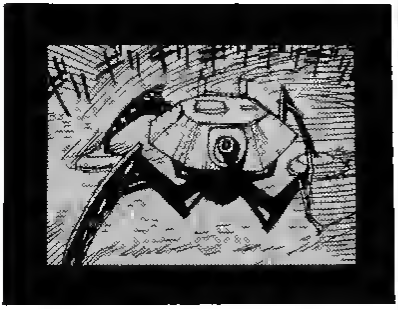


You could at least say "Welcome back"....
...jeez

Besides, it's not the kind of place I can just take you to with a "Yes sir"
ゴト
"Take me to the world above", that's all very well, but....
since then, you hadn't said a word...
Anyway, the first priority for now is to repair the village ....
.....

..Is it already broken?
Humpf!
SAY SOME-THING!!
EDISON STEIN!!
This village... Nostragia, is a holy land
protected by a 500m surrounding wall and the blessings brought to us by the waterfall

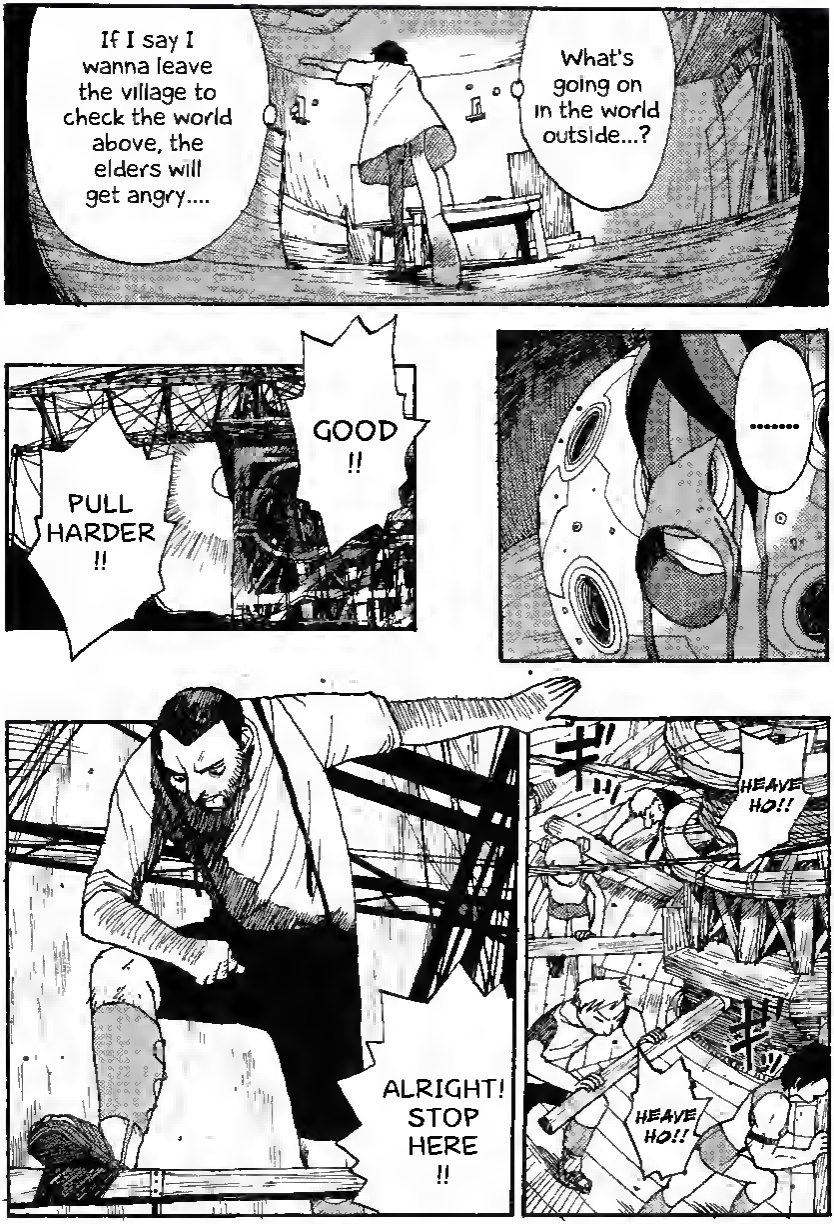
"It is forbidden to leave the village by flying like a bird or climbing the wall..."
"Only demons live in the world outside Nostragia..."
"Otherwise Nostragia will be struck down by a great calamity"
.....



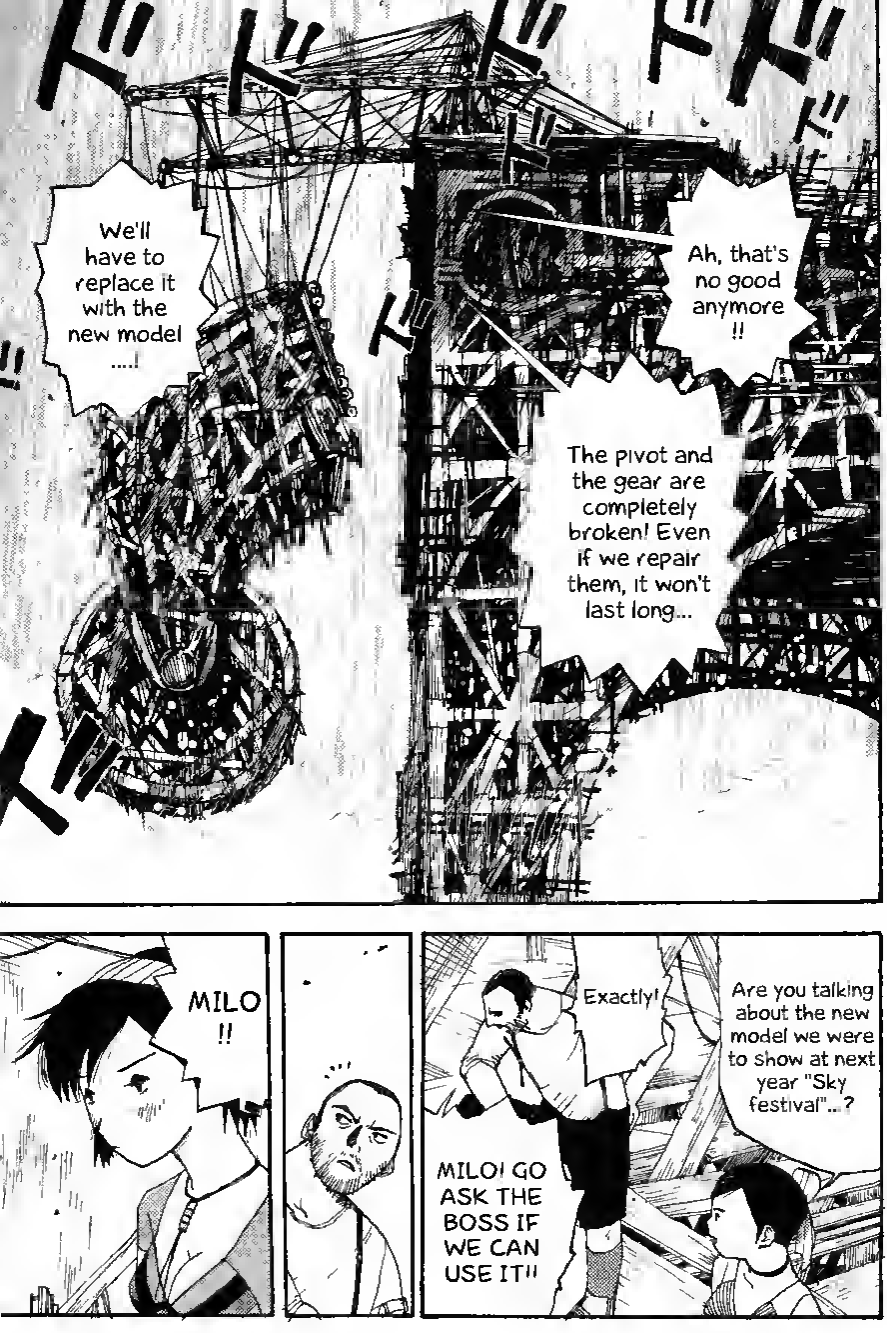
This is the legend we are taught when we are kids...

But however you look at it, that was a machine, made by men....
That thing was one of those demons from outside

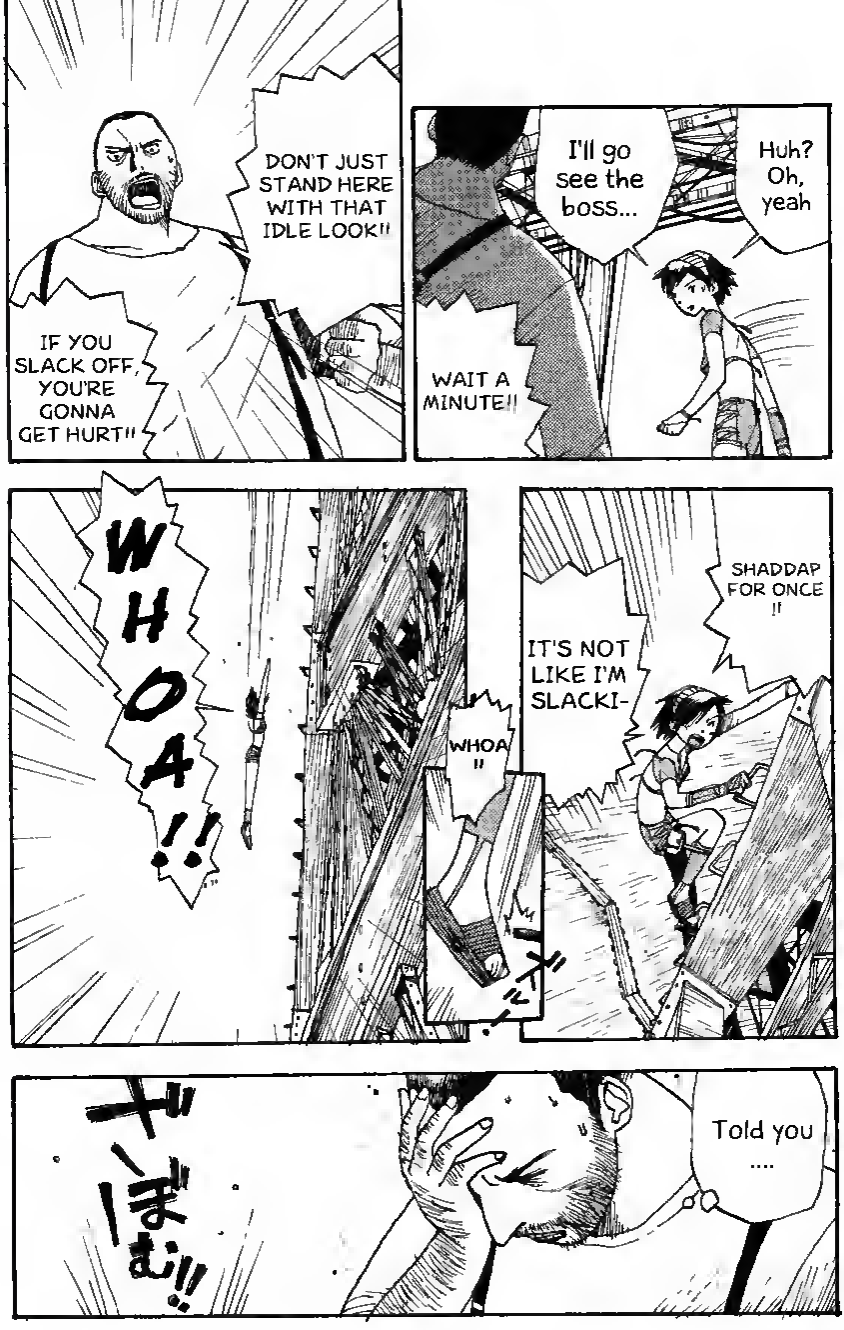
Did Albert really go to the world above the waterfall?
..... well, that doesn't matter....
HE JUST THREW ME AWAY, ME!! HIS FIANCEE !!
AND SUDDENLY DISAP- PEARED WITHOUT A WORD!!
... humpf
Why I am so pissed ...?
.... I want to see you ...
Albert ....



If I say I wanna leave the village to check the world above, the elders will get angry....
What's going on in the world outside...?
GOOD !!
PULL HARDER !!
.....
ALRIGHT! STOP HERE !!
HEAVE HO!!
HEAVE HO!!

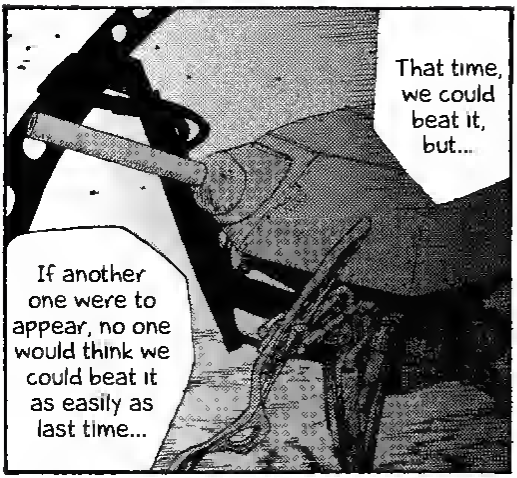


We'll have to replace it with the new model ....!
Ah, that's no good anymore !!
The pivot and the gear are completely broken! Even if we repair them, it won't last long...
MILO !!
Are you talking about the new model we were to show at next year "Sky festival"...?
Exactly!
MILO! GO ASK THE BOSS IF WE CAN USE IT!!



DON'T JUST STAND HERE WITH THAT IDLE LOOK!!
IF YOU SLACK OFF, YOU'RE GONNA GET HURT!!
I'll go see the boss...
Huh? Oh, yeah
WAIT A MINUTE!!
WHOA!!
WHOA!!
IT'S NOT LIKE I'M SLACKI-
SHADDAP FOR ONCE!!
Told you ....
ヤバ!!

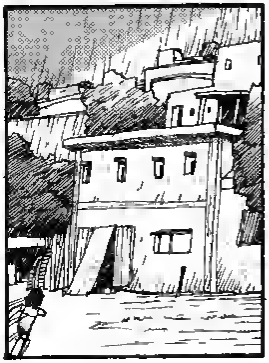
Without the power of the mill, we need one whole day just to take the fish back from the lake
Looks like they've started repairing the water mill...
And since the air purification device doesn't work, the air we breathe become more and more impure
Yeah!
DO YOU KNOW WHEN THE WATER MILL WILL BE FIXED !?
HEY MILO !!
With all the repair going on, we actually need more mechanics, but...
That Henzo, he thinks he's the boss or what!? I'm so pissed
AH!! IT'S MILO !!



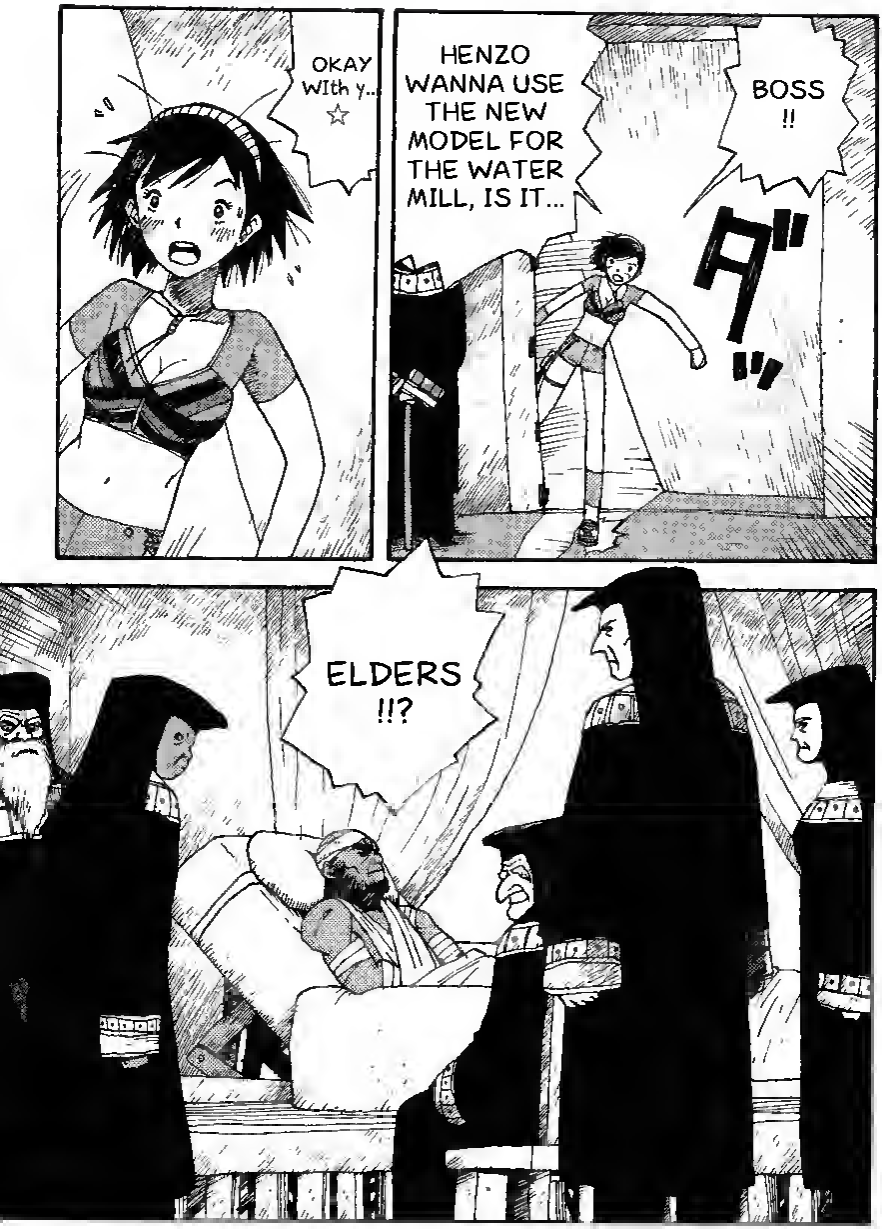
That time, we could beat it, but...
If another one were to appear, no one would think we could beat it as easily as last time...

Everyone avoid talking about the monster from the other day
and all they ever think about is how to fix the village

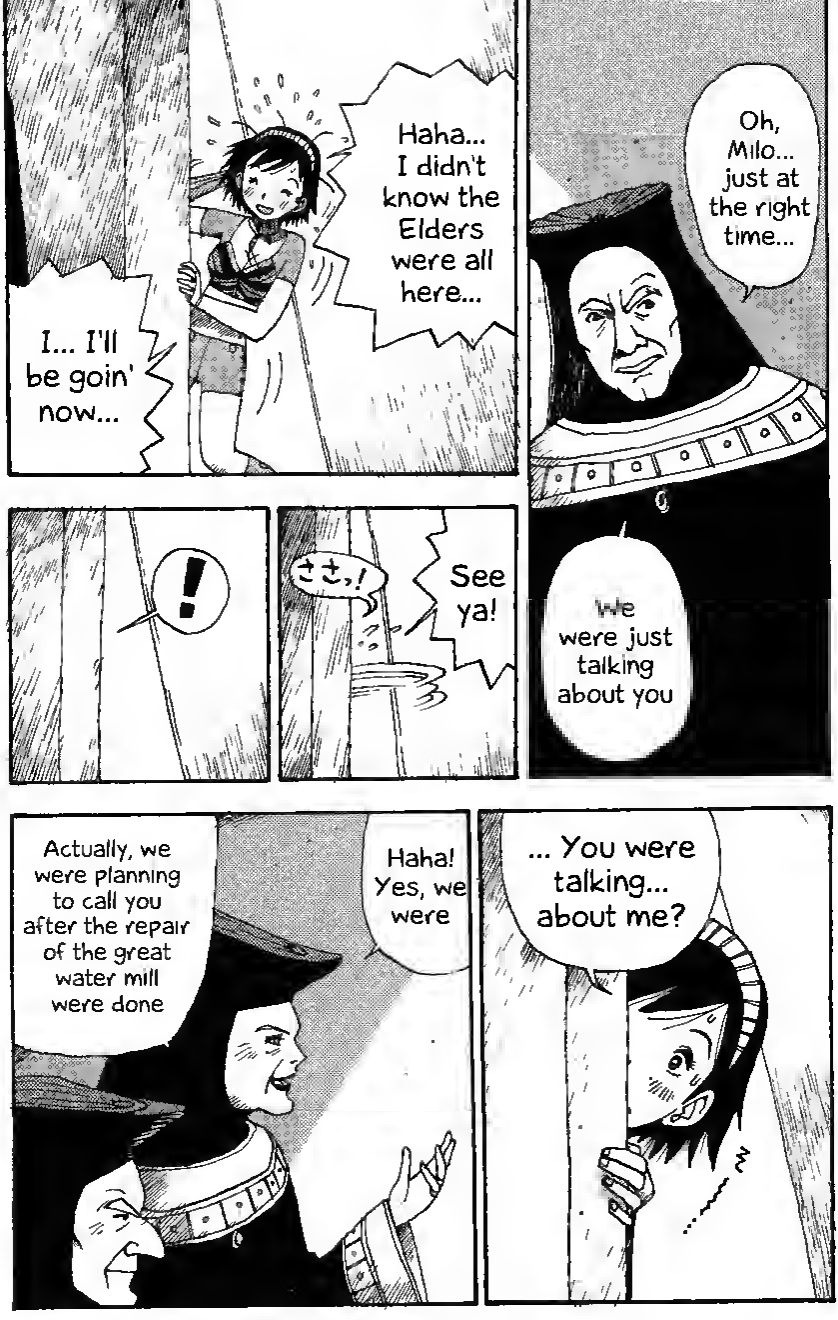
...That's what you say, but isn't she always running?
Well, she is so busy ...



What does the boss think about all that?
HEEE YYYY!! MIIII LOOO !!



OKAY WIth y..
☆
HENZO WANNA USE THE NEW MODEL FOR THE WATER MILL, IS IT...
BOSS !!
ELDERS !!?



I... I'll be goin' now...
Haha... I didn't know the Elders were all here...
Oh, Milo... just at the right time...
We were just talking about you
!
さ さ,!
See ya!
Actually, we were planning to call you after the repair of the great water mill were done
Haha! Yes, we were
... You were talking... about me?

ENOUGH! COME HERE!
That... That's okay!! I'll come back later!!
Please, do sit here Milo

You did a marvelous job destroying that metal monster yesterday
First, we'd like to thank you
If it were not for you, the entire village would have been completely wiped out

Crap... Is it the Elders' Trial...?
Is it because I always say stupid things about them...?
Or because I talked about the outside world...?

You... You're welcome
Well ....

we heard it came from a mysterious sphere that Zatton found under the lake just before that monster appeared
But, that flying machine you used back then,
Even now, some of us want to destroy that thing!
The technology of that sphere isn't suitable for this village .....
We can easily forecast that one day, it will become a threat for the village, just like that monster
IF THAT IS THE CASE!!
It may be true that we used the blueprints that sphere gave us, but....
BUT HE... EDISON SAVED THIS VILLAGE!!
DESTROY IT!

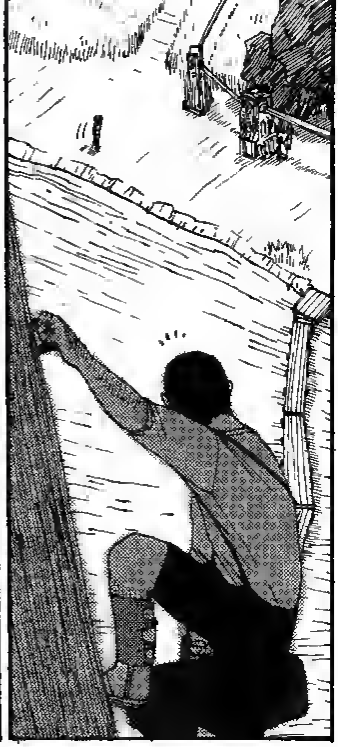
THAT GUY DOESN'T WANT TO HARM THE VILLAGE!!
HE EVEN ASKED ME TO TAKE HIM TO THE WORLD ABOVE AFTER THE INCIDENT
BUT NOTHING WILL CHANGE JUST BY DESTROYING AND CLOSING OUR EYES ON THINGS THAT WORRY US!!
WHAT IS IMPORTANT, RIGHT NOW, IS THAT SOMETHING IS HAPPENING IN THE OUTSIDE WORLD!!
IT'S TRUE EVERYONE IS WORRIED RIGHT NOW !!
Stupid ....
Humpf ....
!!!
THAT'S WHY I WAS PLANNING TO BREAK THE LAW AND LEAVE THE VILLAGE, LIKE ALBERT.

Huh !?
Ah... Err... Of course, rebuilding the village come first ....
Breaking the law is a crime ....
We elders have had a long debate over that last incident
Of course, we can't just close our eyes about that
Hohoho As Zatton said, she's a smart girl....
A CRIME INDEED !!
We finally reached the conclusion to entrust the fate of Nostragia to our young heroine, that's what we were discussing with Zatton...
In other word ...
So we should be able to talk in a more direct way ....
If you have to leave the village, do so in a way that doesn't break the law!!

We want you to take that sphere, leave the village
and go learn more about the outside world

"It is forbidden to leave the village by flying like a bird or climbing the wall"
"Otherwise Nostragia will be struck down by a great calamity"
First, Milo, you'll be the only one to leave the village
Secondly, you have to find a way to leave that doesn't break the law
But, there are two condi-tions!!
Those are some pretty strict conditions, but you have to understand the exception of this situation
Of course, we need to know your feelings too
The decision to leave shall be on your own will, Milo, and not forced upon you
If you don't find a way to follow those conditions, then we'll just act as if this matter never happened
Come back in three days, with your answer ready

SO, CAN WE USE THE NEW MODEL!?
HEY MILO, YOU'RE LATE!!



HUH, WHAT DIDJA SAY!?
I can't hear a thing!!
Yeah, the boss said you could...

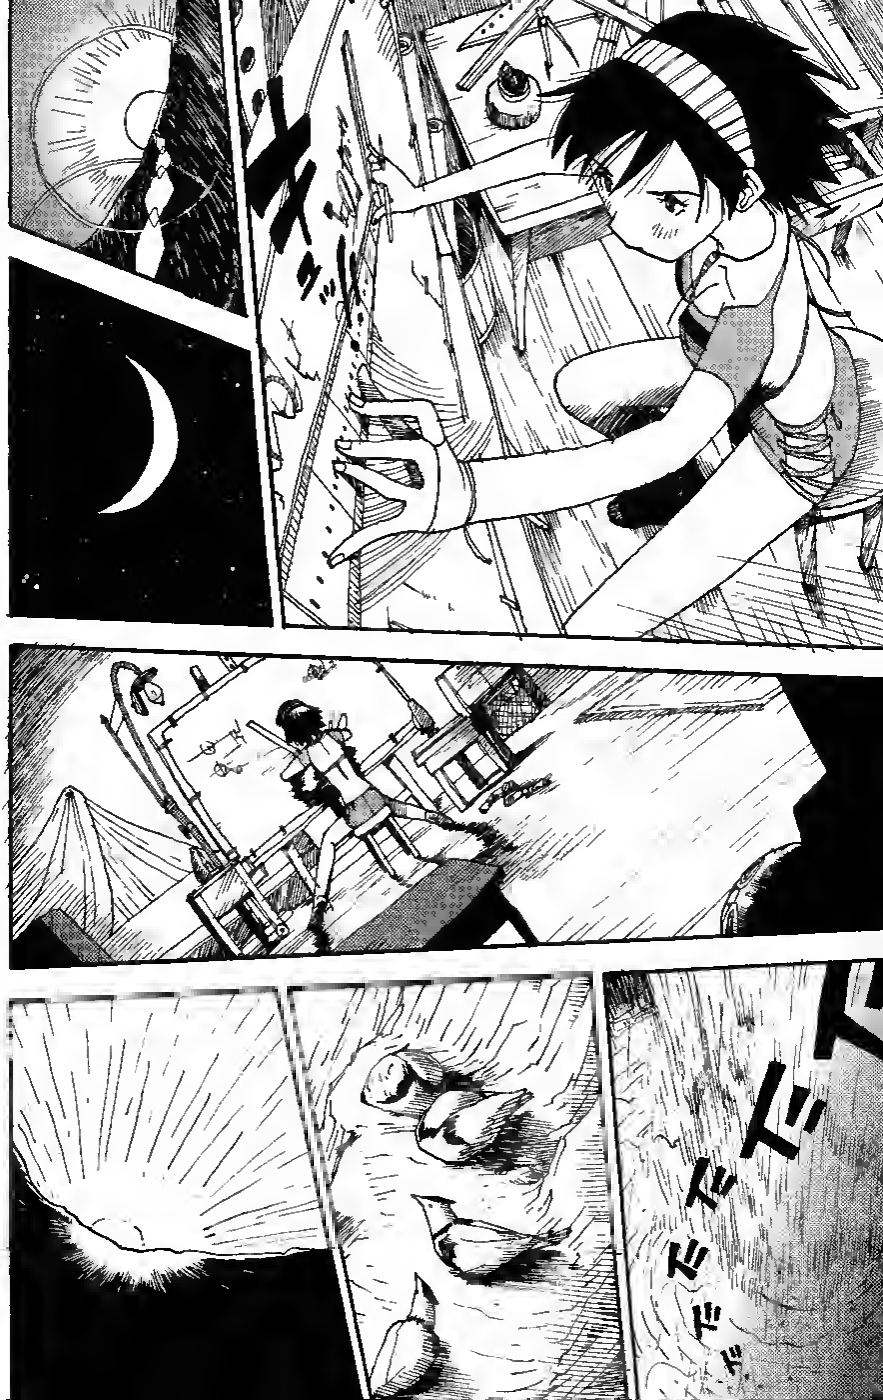
No matter how good a swimmer I am, there's no freaking way I can do that...
Then, all that's left is swimming up the waterfall .....
I cannot fly in the sky... I cannot climb the cliff

ドドド

I'LL BE TAKING THAT BROKEN WHEEL!!
HENZO !!
ANYWAY, WE WON'T BE USING THE CRANE
UNTIL THE NEW MODEL IS READY!!
JUST HOLD IT FOR NOW!!
WHAT!? THE WHEEL !?
I'M COUNTING ON YOU!!
HEY MILO!! WHERE ARE YA RUNNING TO!?

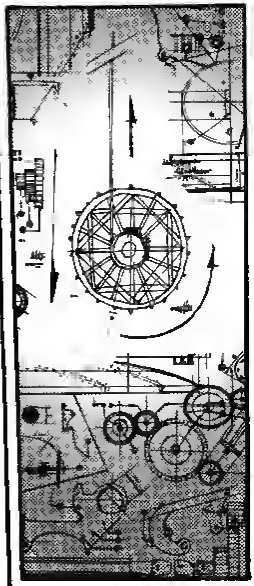
If I can't swim, I'll just have to build a machine that can
I AM A MECHA-NIC!
When do you think...
Hey, Milo!
Ah! Milo is running again!
Ah, she's so far already...
...the water mill will be...

チュ!

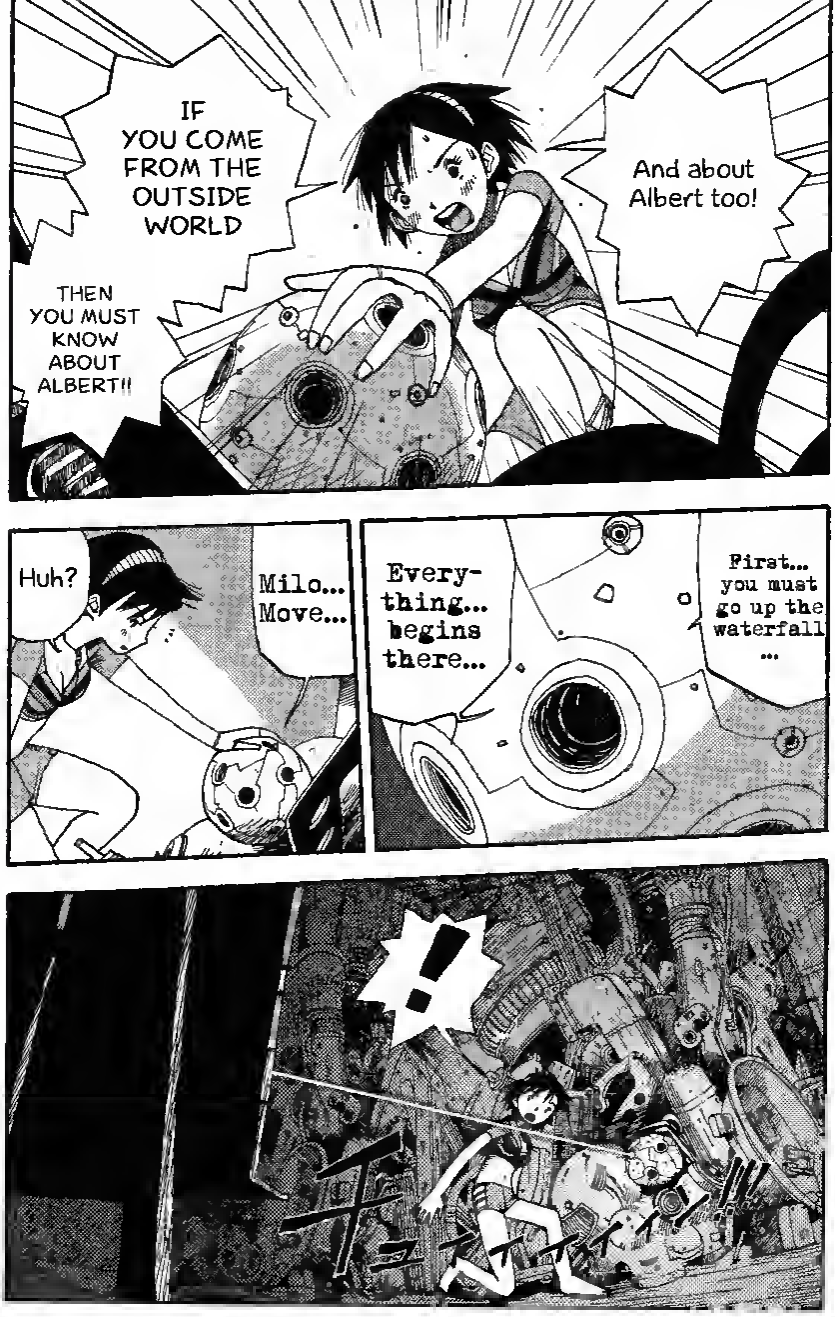


ドドド

It's still ...not enough ...
With this, I could ....



The water volume inside the waterfall is of one thousand tons by square meter
If you use this plan... you'll be swept away by the current
EDISON STEIN!!
Since when are you awake !?
I even thought you were broken!!
I've got so many questions to ask you!!
Where do you come from? What is your relation with my tool, the Vulcan?

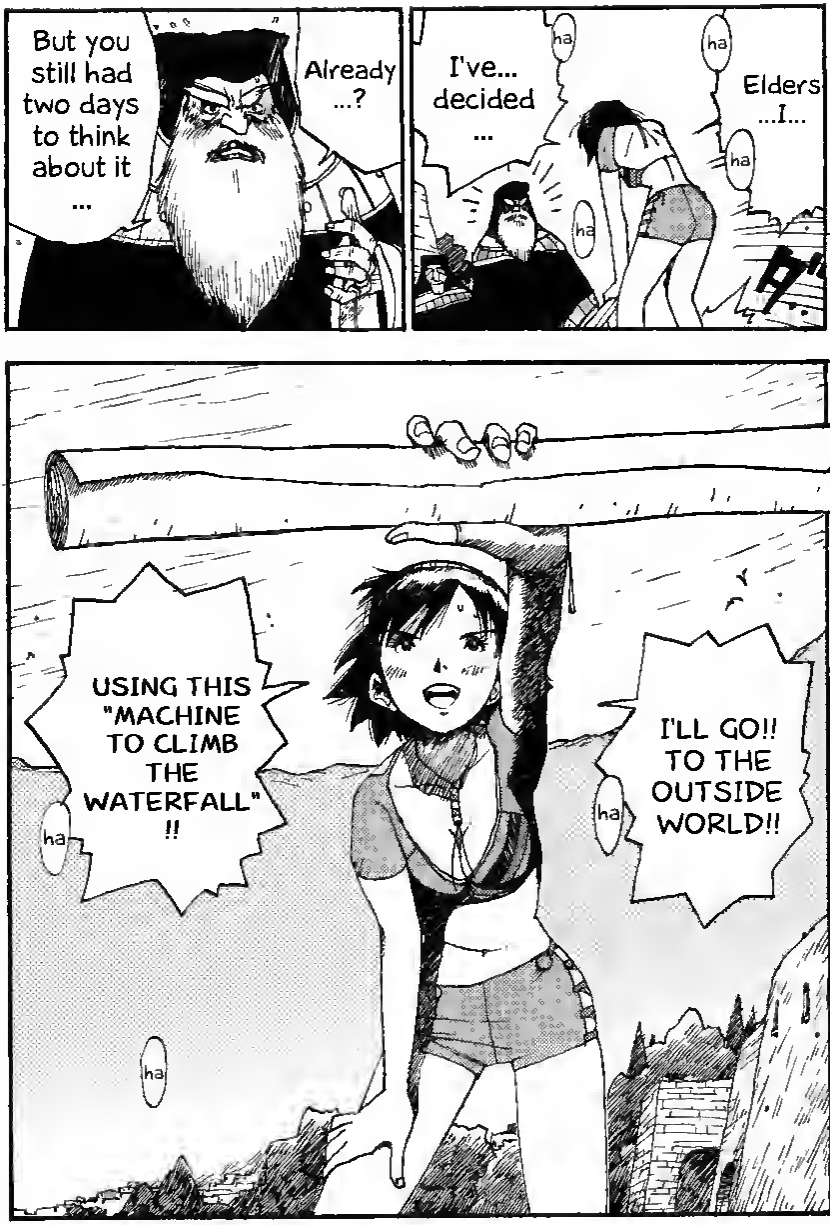


IF YOU COME FROM THE OUTSIDE WORLD
THEN YOU MUST KNOW ABOUT ALBERT!!
And about Albert too!
Huh?
Milo... Move...
Every-thing... begins there...
First... you must go up the waterfall ...
!
キュイーン!!!

He fixed my drawings ...!
... Awe-some !!
シュッ!
シュウウ!
We can easily forecast than one day, it will become a threat for the village, just like that monster.
The technology of that sphere isn't suitable for this village .....
With this... You should be fine...
You're not suitable for this village....
The elders might be right after all
I'll climb with a boat ....
I see...

That stupid monster... It destroyed everything!
Don't overwork yourself!
AAH
Oh!
I sure wouldn't mind receiving help from Zatton's workers ...
Hohoho, isn't that Milo...
!
ELDERS !!

A
MILKY TRANSLATION
RELEASE



But you still had two days to think about it ...
Already ...?
I've... decided ...
ha
ha
ha
ha
ha
Elders ...I...
USING THIS "MACHINE TO CLIMB THE WATERFALL" !!
ha
ha
I'LL GO!! TO THE OUTSIDE WORLD!!
